Program

PRINCE2® Foundation Certification Training

Overview

In this ITIL® 4 Foundation Training course, developed for professionals who wish to embrace ITIL in order to improve service management, you will acquire the information necessary to pass the ITIL 4 Foundation Certification exam.

What You Will Learn?

- Understand the need for project management and how PRINCE2® meets that requirement
- Understand the PRINCE2® process model
- Prepare project plans using product-based planning techniques and undertake risk analysis and management for the project.
- Prepare information for inclusion in a Project Initiation Document
- Understand techniques for planning, management of product development, quality control & change control

Course Key Features

- Practice exams and prep questions
- After-course coaching available
- Exam voucher included

Eligibility

PRINCE2® Foundation Certification course is designed for all project team members (administrators, coordinators, managers), project managers, and program managers. Due to the comprehensive nature of this course, it is also appropriate for general managers, support personnel, and those seeking official acknowledgment of their talents by passing the PRINCE2® foundation test.
