Program

Microsoft Azure Data Fundamentals

Overview

The Microsoft Azure Data Fundamentals MDP-900 training course covers many database principles, including big data, data analysis, and Microsoft Azure fundamentals. The Microsoft Azure Data Fundamentals (DP-900) Certification Training Course will also learn about business intelligence, different processing methods, and Microsoft Azure data products.

What You Will Learn?

- Describe core data concepts in Azure
- Explain concepts of relational data in Azure
- Explain concepts of non-relational data in Azure
- Identify components of a modern data warehouse in Azure

Course Key Features

- Prepare for Microsoft MAZ-900 certification exam
- Microsoft Official Course content
- After-course instructor coaching benefit

Eligibility

Microsoft Azure Data Fundamentals course is designed for those who wish to master the principles of database ideas in a cloud environment, acquire core skills in cloud data services, and develop a solid foundational understanding of cloud data.

Program

Microsoft Azure Data Fundamentals
