Certified ISO 27001 Lead Implementer Certification Training Course

Overview

ISO/IEC 27001 Lead Implementer training course enables participants to acquire the knowledge necessary to support an organization in effectively planning, implementing, managing, monitoring, and maintaining an information security management system (ISMS).

What You Will Learn?

- Explain the fundamental concepts and principles of an information security management system (ISMS) based on ISO/IEC 27001

- Interpret the ISO/IEC 27001 requirements for an ISMS from the perspective of an implementer

- Initiate and plan the implementation of an ISMS based on ISO/IEC 27001, by utilizing PECB's IMS2 Methodology and other best practices

- Support an organization in operating, maintaining, and continually improving an ISMS based on ISO/IEC 27001

- Prepare an organization to undergo a third-party certification audit

Course Key Features

- Self-paced training to suit your schedule

- Certified Instructor

Eligibility

Project managers and consultants involved in and concerned with the implementation of an ISMS Expert advisors seeking to master the implementation of an ISMS Individuals responsible for ensuring conformity to information security requirements within an organization Members of an ISMS implementation team
